

Conformance test architecture for biometric data interchange formats: version beta 2.0

Filesize: 7.86 MB

Reviews

This type of pdf is every little thing and helped me searching forward and more. It can be writer in easy words and phrases and never hard to understand. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about should you request me).

CONFORMANCE TEST ARCHITECTURE FOR BIOMETRIC DATA INTERCHANGE FORMATS: VERSION BETA 2.0

To get **Conformance test architecture for biometric data interchange formats: version beta 2.0** eBook, remember to follow the web link under and download the ebook or have access to additional information that are in conjunction with CONFORMANCE TEST ARCHITECTURE FOR BIOMETRIC DATA INTERCHANGE FORMATS: VERSION BETA 2.0 ebook.

No binding. Book Condition: New. This item is printed on demand. Original publisher: Gaithersburg, Md. : U. S. Dept. of Commerce, National Institute of Standards and Technology, 2011 OCLC Number: (OCoLC)732354255 Subject: Biometric identification -- Computer programs -- Standards. Excerpt: . . . NISTIR 7771-Conformance Test Architecture for Biometric Data Interchange Formats-Version Beta 2. 0 Groups are defined in XML, not by hard-coded values typed by hand into a CTS Module. The XML format is far superior to hard-coded values for editing, proofreading, and transformation of the group information into other useful forms. The part of the CTS Module that determines if the set of groups forms a valid data structure is very small and clear. 2 Once the structure has been determined valid, many level 2 assertions become trivial to write and test. Additional information on this approach is discussed in Annex A. 2. 4. 4 Additional Data The CTA supports optional auxiliary binary information called Auxiliary Data . The purpose of Additional Data is to allow a field to pass that would normally fail under certain conditions. For example, some Modules are designed to test the content of the CBEFF Product Identifier field. Some standards state that CBEFF Product Identifier codes can be registered with the International Biometric Industry Association (IBIA) at www.ibia.org. The CTA Modules are released with a version of the codes from IBIA. During testing, if the CBEFF Product Identifier field has a code that is not on the list, the test fails. However, if the value matches exactly the value in Additional Data, the test passes. This allows tests to pass where the CBEFF Product Identifier code has not yet been registered, was registered after the release of the Module, or is strictly used for internal purposes and will not...
